Dear Sir:

In response to the Notice of Non-Compliant Amendment mailed on February 13, 2008, Applicants are re-submitting a corrected version of a Response to Restriction Requirement.

By way of background, the Restriction Requirement mailed July 9, 2007, issued a three-way restriction with the Group I claims including Claims 1-39. The Restriction Requirement further stated that with respect to the Group I claims, Claim 31 was generic, but required an election of the following species: Claims 1-12, Claims 13-30, and Claims 31-39.

The Notice of Non-Complaint Amendment states that one of these species was not elected in the response to the Restriction Requirement.

Applicants elect without traverse, the third species directed to Claims 31-39. Accordingly, Applicant is withdrawing Claims 1-12, 13-30 and Claims 40-82 from consideration. Applicants believe that at least Claim 31 is generic. Upon the allowance

of a generic claim, Applicants understand that they will be entitled to consideration of Claims 1-12, 13-30 and 40-82.

A complete listing of claims and their status begins on page 3 of this paper.
